

SHUBHAM SINGH

SUMMARY

Aspiring FullStack Web Developer with hands-on experience in Node.js, Express, MongoDB and React. Quick learner with a strong grasp of API development, authentication, and clean code practices. Eager to contribute, grow, and solve real-world problems in a collaborative team environment.

EDUCATION

Bachelor of Computer Applications (BCA)

Veer Narmad South Gujarat University
Surat, Gujarat | 2022 – 2025

Senior Secondary (Class XII)

Council of Secondary Education, Uttar Pradesh
Mau, Uttar Pradesh | 2021

PROJECTS

Blog Post Management API [Link](#)

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT, Passport.js, Multer, Cloudinary.

Key features:

- User authentication with JWT and role-based authorization (admin, editor, viewer) using Passport.js.
- CRUD operations for posts, comments, likes, with file upload support via Multer and Cloudinary integration.
- Implemented pagination, aggregation for Each user Post.
- Designed scalable route handling and error management using custom middleware and controller structure

User Authentication and Management System [Link](#)

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, Multer, Cloudinary, JWT (Access and Refresh Tokens), Bcrypt

A secure and scalable backend system for user authentication and profile management, including file uploads, and token-based session handling

Key features:

- Built user registration and login system using JWT access and refresh tokens
- Secured password storage using bcrypt hashing
- Implemented profile image upload using Multer and Cloudinary integration
- Created middleware for token verification and access control

Food-Cart-Management-Frontend [Link](#)

Tech Stack: React.js, Vite, JavaScript, CSS, HTML

Developed a responsive web application for managing food cart operations, utilizing React.js and Vite for efficient development. Implemented features such as menu browsing, cart management, and order placement. Ensured seamless user experience with optimized
